Unit Description

This unit will provide management accounting knowledge for application within an organization, such as information management, marketing, valuation, pricing, cost control. Management accounting is involved in decisions that will affect the future of the organization.

Topics covered include management planning and decision-making; analysis of financial statements; budgeting for control and performance evaluation; decision making and cost behaviour.

Unit Learning Outcomes (ULOs)

On successful completion of this unit, students will be able to:

- ULO-1: Understand accounting as it relates to management planning
- ULO-2: Understand where activity-based costing (ABC) is used
- ULO-3: Budget for control and performance evaluation
- ULO-4: Perform financial analysis and interpretation, including cost-volume-profit (CVP)
- ULO-5: Evaluate capital expenditure decisions
- ULO-6: Utilize non-financial performance measurement
